ANOTHER DEAL.

Austrian Report of Coaling Station Negotiations Between Great Britain and This Country.

London, Nov. 24.—The Vienna correspondent of the Daily Chronicle says it is semi-officially announced there that negotiations are on foot between Great Britain and the United States with a view of conceding to the latter a coaling station in the Straits of Bab-el-Mandeb, the straits uniting the Red sea with the Indian ocean. With this object in view, the islands of Socotra, in the Indian ocean, 120 miles east of Cape Guardafui, the eastern extension of Africa, is to be leased to the United States, the latter undertaking to erect a lighthouse east and west of the island, which must not be fortified. It is further stipulated, the correspondent says, that only warships are to be allowed to coal there, so as not to injure the English coal trade at Aden.

WITHOUT ANYTHING FEMININE.

There is only one territory of any size—and never has been but one—occupied by any considerable population from which woman is absolutely excluded. Yet such a place exists today, and has existed for centuries. As far back as history reaches, to all females it has been forbidden ground. This country without women is situated on a bold plateau between the old peninsula of Aetia, in the Greek archipelago, and the mainland. Here, in the midst of uncultivated fields and extensive woodlands, dwells a monastic confederation of Greek Christians, with 23 convents and numbering more than 7,000 souls. Not one of the monasteries dates from a later time than the twelfth century. A few soldiers guard the borders of the land, and no woman is allowed to cross the frontier. Nor is this all; the rule is extended to every female creature, and from time immemorial no cow, mare, hen, duck or goose has been permitted to enter this territory.

COMMISSION INSTRUCTIONS.

Disbanding of Cuban Army and Thanks to the United States.

Santiago, Cuba, Nov. 23.—In general terms, the instructions given to the special commission from the Cuban assembly headed by Gen. Calixto Garcia, now in the United States, were the following:

"First—To bring to the consideration of the United States government the fact that, now Spanish control is ended, it is time for the Cubans to disband, unless required to assist the Americans to keep order, but that it would be a hardship to disband them without payment.

"Second—To request sufficient funds for this purpose out of the income derived from taxation throughout Cuba.

"Third—To offer the support of all classes of Cuban revolutionaries.

"Fourth—To thank the United States congress for the resolution of April, 1898, insuring the independence of Cuba."

THE CLAIMS TO BE CREDITED.

Southern States Cw the Government for Trust Funds of Indian Tribes.

Washington, Nov. 24.—The states of Louisiana, Florida, Tennessee, North and South Carolina and Virginia may have to whistle for the money expended by them in equipping their quotas of troops in the late war. This expense was to be reimbursed to them by the United States government, but under a decision rendered by the comptroller of the treasury to lay their claims against the government will not hold.

The case in question grew out of the claim of Virginia for \$2,999,600 for the equipment of its troops. This claim was sent to the secretary of the treasury by the auditor of the war department for audit and warrant. It was subsequently referred by the secretary to the comptroller, with the statement that the United States held certain Virginia state and stock bonds, which represented the trust funds of certain Indian tribes and which the United States had been compelled to assume because of the failure of the state to meet the interest thereon and to pay the principal.

The secretary further asked whether or not, under the act of March 3, 1875, he should not withhold payment of the claims so as to offset in part the indebtedness to the United States. The comptroller upheld the secretary and the amount of the state's claim will therefore be ordered to be turned into the treasury of the United States.

Under this decision all of the southern states indebted to the government for Indian trust funds will have their claims withheld and none of them according to the comptroller, is free from this kind of indebtedness.

CANADA'S SEALING.

Estimates of Its Value Surprisingly Low, and Settlement Expected.

Washington, Nov. 24.—The Behring sea question was the main question before the Anglo-American commission Tuesday when it resumed its sessions after several days' recess. For the first time the two sides were prepared to exchange their estimates on the value of the Canadian sealing fleet, the purpose being to arrive at some fair valuation and retire the fleet by purchase. The initial steps in this direction were taken while the commission was at Quebec, since which time Capt. H. C. Taylor, in behalf of the Canadians, and Thayer, in behalf of the Americans, have been making appraisals of the fleet. After several weeks at Victoria, where the sealers rendezvoused, Capt. Taylor and Thayer have arrived here, accompanied by Capt. Cox, who represented the sealers. The two appraisers made their reports to the respective sides, and these reports in turn were exchanged by the commissioners with a view to common ground of agreement. It is understood that both appraisals are considerably below what was expected, and that instead of running into millions, they may not much exceed a half million. Under such circumstances strong hopes are expressed by members of the commission that a sum may be agreed upon for the buying of this industry and the final settlement of this long-pending and vexatious controversy. It is said, however, that there is still considerable difference between the appraisals of the Canadian and the American experts, which will have to be reconciled before an agreement is possible. After the joint meeting of the commission a special committee, consisting of Lord Herschell and Sir Louis Davies, Senator Fairbanks and secretary Foster, took up the Behring sea question. Besides the written reports of the appraisers, the latter were called in person and examined regarding the sealing fleet.

LIST OF ALL THE CASUALTIES.

Washington, Nov. 23.—From returns which are believed to be absolutely correct, the adjutant general's office has prepared a list of casualties in the Spanish-American war. The statement is as follows:

Laguna, June 24.—Killed, 1 officer and 15 men; wounded 6 officers and 44 men.

San Juan, July 1 to 3.—Killed 17 officers and 134 men; wounded 69 officers and 938 men.

El Caney, June 1.—Killed 4 officers and 84 men; wounded 24 officers and 332 men.

Aguadores, July 1.—Killed 3; wounded 2 officers and 10 men.

Around Santiago, July 10 to 12.—Killed 1 officer and 1 man; wounded 1 officer and 12 men.

Total killed, 23 officers and 234 men; wounded 102 officers; 1336 men.

ENGLAND OBJECTS

To the Emperor of China Being Superseded by Empress.

Tacoma, Wash., Nov. 23.—Sir Claude Macdonald, British minister at Peking, will represent to the Chinese government that the emperor should not be superseded by the empress on the simple pretext of the emperor's ill health. He will also object to suspension of reforms begun by the emperor before his removal. He recommends greater precaution against assaults on foreign residents. The British minister is negotiating with other ministers on these subjects.

GERMANY DISTURBED.

Doubts of American Sincerity in the "Open Door" Policy.

London, Nov. 24.—The Berlin correspondent of the Times who remarks this morning upon the "skepticism of the German critics regarding the sincerity of America's intentions to adopt the 'open door' policy in the Philippines," and calls attention of German speculators on the prospect of protection in the American possessions in the Pacific, says:

"The Nauste Nachrichten draws attention to the treaty of 1877 between Spain, Great Britain and Germany, securing freedom of trade in the Sulu archipelago for Anglo-German shipping, and says that Prince Bismarck at that time successfully contested Spain's claim to have the Sulu regarded as belonging to the Philippine group."

The correspondent draws attention to the fact that a section of the German press "hastily assumes that America will claim the Sulu, and suggests that this is a point upon which an understanding with Great Britain, with a view to joint action, appears indispensable."

MEDICAL SOCIETY.

The Doctors Had Several Interesting Matters—No Action Taken.

There was No Answer to the Letter From the Druggists' Records to Be Kept.

The Paducah Medical and Surgical society met last night with Dr. J. G. Brooks, on North Fifth street, with a good attendance.

The principal matters that came up for discussion were the letter from the druggists, denying that they are guilty of counter prescribing, and the matter of telephone service.

In the first the doctors decided that no action was necessary. It was decided to keep a record of every prescription made by a druggist, and at each meeting of the society to report it to the body. The doctors claim that they come across prescriptions written by druggists every few days, and when they ascertain names and when they will be ready to take more decided action, according to the result of last night's meeting.

A rather pointed letter to the management of the East Tennessee Telephone company at Nashville was presented, but it was deemed a little too personal, and was not passed by the society. It was decided in the telephone matter that all the doctors are to keep a record of each instance of unsatisfactory service, with names, time, date, and the result, and report to the authorities at Nashville. When they do report they will report nothing but what they are able to substantiate beyond a doubt.

THE MAN RAN.

Marshal Collins Thought He Was Drunk, and He Was, But He Could Move.

A river man entered Mr. Carson Jones' saloon on Second street last evening and asked the bartender to loan him a dollar out of the drawer. It would be all right, he said, but the bartender did not think so, and declined to grant the request. The man was so insolent that Marshal Collins, who was nearby, was asked to take him out. He did so, and "threw" him out the outside, and thought he would have to have assistance as the prisoner did not appear able to walk. When he realized that he was in the clutches of an officer he braced himself against a post, pulled himself together, and with one mighty effort freed himself and ran away. He ran so rapidly that a race horse would have had a hard time keeping up with him, and he ran in as straight a line as a sober man could have gone. The marshal thinks a policeman may sometimes be misled in the degree of intoxication a man may have.

HE WAS DRUNK.

Thomas Webb's Parents Thought He Had Been Poisoned.

Thomas Webb is the name of a small colored boy who went to one of the colored schools. Yesterday afternoon he found a pint bottle of whiskey and thought it would be a nice adventure to drink it all, and find out how it felt. He drank the entire contents. In a short time he began to feel the effects of it, and the teacher did not know what to make of it. A carriage was sent for, and Thomas was conveyed home where Dr. P. H. Stewart was called.

"I guess he'd gone pined hisself," an old woman sorrowfully said as she met the doctor at the door, and led him in. A hasty examination was made, and an injection of apo-morphia administered. In a short time a change came over the spirits of Thomas' dreams, and this morning he had plenty of room for Thanksgiving dinner.

ANTI-EXPANSION IN NEW ENGLAND.

It is no new thing to have in New England a strong party, often a dominant party, opposed to the growth of the republic and antagonistic to the national principle.

New England federalism is about to assume an aggressive form. Senator Hoar is ready to accept Prof. Elliot Norton as his intellectual leader, and men of all parties are trying to get together in opposition to the administration in this policy of territorial expansion.

As in the old days when many of the most eminent men of New England were ready to sacrifice the union to destroy slavery, so now we have apostles and propagandists, newspapers and societies working to check, to thwart, to destroy any party that contends that war brought to us opportunities and duties which we cannot escape if we would and would not escape if we could.

The Herald, of Boston, is a mugwump journal; it opposed the war with Spain, rejoiced at no American victories, praised the Spanish successes, the administration, and now insists that the war has been to America an unmitigated misfortune. In a recent issue the Herald said:

"We have called attention to the fact that the largest majority given to any member of congress from Massachusetts was that of Congressman McCall. The Springfield Republican, in commenting upon this result, remarks that Mr. McCall stood alone among Massachusetts representatives in voting against declaring war with Spain, and was the most pronounced of the Republicans running for

against the acquisition of foreign territory in the east by the nation."

There is nothing strange in all this. When the war of 1812 broke out New England was more of an ally of Great Britain than an aid to America. The conclusion of the war and the treaty of peace prevented a New England secession, but it did not prevent treason in high places and an organized open rebellion.

So, when the war came with Mexico, the political and literary elements in New England opposed the war and sought by every means to embarrass the government in the conduct of the war, and every effort was used to stop enlistment.

The Boston Post is a democratic newspaper; it, too, is opposed to expansion and is falling in line with the New England Federalists in their efforts to check the forward march of the American republic. In a recent issue the Post says:

"I am not without strong belief," says Senator Hoar, "that the administration will discover a solution of the impending questions that will be satisfactory to all men, except reckless and extravagant expansionists. This is very hopeful, very comforting, as far as it goes. We all want to be satisfied, and if President McKinley can satisfy the public sentiment which protests against the policy of loading 8,000,000 uncivilized Malays upon the United States, all of us will give him credit for doing well."

This is more an echo of Josiah Quincy's speech against the admission of Louisiana. The Philippine Islands are a rich possession kept uncivilized by the barbaric rule of Spain.

Their natural resources are immense, and need only the influence of law and modern commerce to become a most rich possession.

American influence will civilize, humanize and develop these people and render an inestimable service to mankind.

American influence in the Pacific must be extended. This nation cannot stand still; America must continue its onward career or decline.

The Pacific is the field of future development as surely as was the Great West 100 years ago.

The people of the Pacific coast to the administration, and from the administration to the Pacific coast the American people will stand as a unit in support of a policy of expansion. Within the next 100 years the Pacific coast will far surpass the Atlantic coast of today in commerce, in industry, in riches and in

"And this change will not be at the expense of New England. The great West has been built up but not at New England's expense. The population, wealth, commerce and industry of New England are far greater today than when Josiah Quincy, a political Mrs. Partington, was trying to stay the waves of progress, greater than when the first secessionists were trying to form a new England republic, separate from the American republic. The ills predicted by these prophets of evil have never fallen on us; the cursings of these prophets of Babel have changed to blessings. Progress is the law of existence and New England should conform to it without so much idle resistance. America is going forward and will drag New England with her, because, let the scholars and senators of New England say what they will, the heart of New England beats in time with the heart of the West."

CRIME AND TERROR.

Between Desperados and Official Corruption, the Island is in a Bad State.

Havana, Nov. 23. (via Key West.)—The last few days have seen a revival of activity in every quarter. Things appear to take on more definite form in every branch of military occupation. Here at Havana wharves are being built and water connections made. The camps chosen have already begun to be constructed. Government boats and supplies are arriving, and the first installment of United States troops is expected on Friday. The best energies of the Spanish now seem bent upon an immediate evacuation of the island. All this has had a salutary effect upon the general tone of commercial and social life in the city, which looks to the immediate future for relief from a long season of doubt and stagnation.

With the advent of cooler weather the health of the general public has improved. No new cases of yellow fever among foreigners have been recorded, and the situation can be said to be visibly better.

The newly constituted police force known as the Rifles, make a very poor substitute for the disbanded Orden Publico. The alarming increase in vice and crime renders it unsafe to walk the streets unarmed or unprotected after nightfall.

Corruption, bribery and wholesale stealing in the military and civil administration continue unchecked. As already cabled, the mayor of Havana, on his own responsibility, without the sanction of the city council and board of aldermen, increased the city budget for the salaries of municipal officers and employees from \$34,000 to \$54,000. The board of aldermen, at their last session, resolved not to confirm the mayor's action, thus compelling him to pay the difference out of his own pocket.

RAILROAD NOTES.

Many Improvements at Fulton.
New Freight House
There.

Business Rushing on All Divisions of the Road at Present.

The holiday rush is on in railroad circles, and every available car is in use. The company is doing remarkably well in handling the business it does, and could use many more cars if they could be had. The freight department is the busiest of all just now.

The afternoon train from Louisville yesterday was delayed near the Union depot by the engine jumping the track. There was no damage of consequence.

Many of the railroad men who have been attending court have gone home to spend Thanksgiving. They will return tomorrow.

Baggage Master Will Flowers is almost well again, having resumed work a day or two ago.

A gang of 80 negro workmen passed down the I. C. yesterday afternoon for Ripley, Tenn., to work on the construction of a double track being placed in from there south.

It is said that the Illinois Central line to Omaha will be completed by July 1 next, and that the company

will have trains running into Omaha by that time.

Second Vice President Harahan and a party of I. C. officials, in their private car, were last night carried over the N. C. & St. L. from Jackson to Nashville. Their business in Nashville is unknown.

Assistant Second Vice President A. C. Wallace of the I. C. railroad and Private Consul Judge Ayers and Judge Fentress and guest, W. C. Lyon, of Chicago, were here today on Wallace's private car, says yesterday's Fulton Leader. They had been to New Orleans on a business trip, and were en route to Chicago. When consulted by a Leader man Wallace stated that Fulton was rapidly growing and that the I. C. railroad was going to do more for Fulton and that it might not be long before Fulton would get repair shops.

The carpenter work on the new freight depot at Fulton will be completed tomorrow. The painters, Geo. Woods, James Woods, Wm. Klammer and A. Hunter arrived yesterday morning from Chicago to paint the new depot. They say it will be completed and ready for use in twelve days. It is certainly a nice addition to Fulton and will be a handsome structure when completed.

ELKS MEETING.

The Elks will meet tonight in regular session, and a large attendance is desired, as there will be one or two candidates to take the degree.

THURSDAY, NOV. 24, 1898.

It is feared that Spain is not enjoying her Thanksgiving day.

The latest addition to our foreign commerce is the castiron pipe trade, 2000 tons having been shipped from Paducah to England.

The business men of Paducah will welcome the new telephone company. Even telephone companies respond to the salutary effects of competition.

The talk of a future political division on the question of expansion is merely a waste of time, as the question has already been decided in favor of expansion.

SECRETARY ALGER will continue to manage his own affairs to that extent that he is not going to resign. He is not trying to dodge his record, a fact which gives pain to the yellow journals.

Gov.-ELECT ROOSEVELT is disappointing his enemies by keeping on good terms with all members of the republican party. He'll disappoint them in other ways after he assumes office.

One of the surprising things of this surprising year is the confidence of those Kentucky democrats who are "announcing" for a place next year on Goebel's free silver, 16 to 1, anti-expansion ticket.

ASSISTANT SECRETARY VANDERBILT to look into the money system, the light house service, the coast survey, and other matters that come under the treasury department.

HOWEVER the city council may conclude to settle the road bond interest must be paid. There is but one thing that Paducah will ever repudiate and that is repudiation itself.

SENATOR ALLEN, of Nebraska, who will be succeeded by a republican, is credited with an intention to become a rival of Col. Bryan and to fight him for the control of the Nebraska delegation to the democratic national convention; but he denies it.

PRESIDENT MCKINLEY's suggestion that the festivities at Atlanta, which he is booked to attend, be called a celebration of American victories, instead of a "peace jubilee," was timely and wise, and a hint that should not be overlooked by Spain.

An agent of the department of agriculture succeeded in growing to maturity oats, barley, flax, potatoes, and a number of vegetables in Alaska, this year, which proved the falsity of the contention that the summer was too short there to mature such crops.

In ten months of the present year the imports of gold into this country have been \$142,000,000 and the exports \$14,000,000. Thus for every gold eagle that came in, a tiny little gold dollar went out. We can stand that many years, but how about the other nations?

REPRESENTATIVE HEPBURN, of Iowa, says the Nicaragua Canal must be built, because the people demand it, and the republican party is pledged to it; that it must be built on American soil, under the American flag, under American policing, and directly by the U. S. government.

The silver democrats have lost forever New York, New Jersey, Delaware, Connecticut, Maryland, West Virginia and Indiana. Kentucky can be counted in the doubtful column. At the present rate of loss they cannot muster as many electoral votes in 1900 as were formerly voted in the Solid South.

The mayor must not get discouraged over his bond proposition. In a modified form the proposition would doubtless be approved by the council and by the people. Let the improvements be tested on Broadway and the people will quickly see that what is good for Broadway is good for the other streets.

NEXT to France the United States will have the largest space at the Paris exposition. And even then there will not be enough for all applicants. This is a fair warning to manufacturers. If you are going to show your goods to the world apply for space, and apply soon, for the show will be a big one, and well calculated to draw sightseers from all parts of Europe.

THE DECADENCE OF PUGILISM.

The result of the fight between Corbett and Sharkey at New York the other day can be viewed but in one light by thinking people. It marks the certain decadence of the so-called science of pugilism.

It has not been so many years since the name of Sullivan was a household word. The people worshipped him—almost deified him; yet Sullivan was a human brute. He made no pretensions to gentility, and in that much at least was consistent. Nevertheless, the people at that time, almost as a unit, waited with bated breath the result of a mill, eagerly devouring every detail. In marked contrast was the recent fight in New York. Although not a contest for the championship, it was hardly less an event, viewed from the pugilist's standpoint.

However the public gave it little attention, the daily press dismissed it with a few columns of details and criticisms, and in a few months there will scarcely remain a memory of the event. It is well.

When this country shall have discarded prize fighting, foot ball and a few other similar brutish sports, when muscle as well as brain shall be cultivated for more useful arts, then will she be better able to fulfill her destiny and take her place as one of the world's great civilizing agents, a duty that is so clearly apparent to the progressive, thinking Americans.

FOR CUBAN OCCUPATION.

First Brigade, Under Brig. Gen. Oates, to Embark From Savannah.

Washington, Nov. 24.—The war department today issued the first general orders looking to the occupation of the central and western provinces of Cuba by the United States troops. The order contemplates the early beginning of the movement, as the Spanish troops are expected to have progressed sufficiently with the evacuation movement early in December. The order directs the sending of the First brigade, Third division, Second army corps to proceed fully equipped to field service in Cuba. One headquarters and one regiment are to be at Pinar del Rio, one regiment at Matanzas and one at Guanajay.

This brigade is commanded by Brig. Gen. Wm. C. Oates, and consists of the Fifteenth Pennsylvania, Third New Jersey and 1024 New York. They are now at Athens, Ga., Meade, Pa.

Maribel is the asport of Pinar del Rio province on the north side. It lies about thirty miles west of Havana, and lying inland 15 miles is Guanajay, the nearest point to the railroad line running from Havana to the city of Pinar del Rio, the capital of the province of the same name, which is about 120 miles west of Havana, and is to be the headquarters of the American army of occupation in the province. The railroad can be reached from Guanajay by a short march.

"THE MIDDLE MAN."

Rentrow's Jolly Pathfinders had another packed house last night at Morton's. "The Middle Man" being produced. The play was exceedingly well interpreted, and won for this popular company much applause. The specialties were new and pleasing, and the company bids fair to become the most popular that ever visited Paducah. This afternoon there is in progress a society matinee, attended by a large crowd. Tonight "Below Zero" will be presented.

WILL STRICKLAND CAUGHT.

Will Strickland, a negro who had been wanted by the police for several months, was captured last evening by Officers Crow and Euter. He had been dodging around town for nearly a year. He will be given a trial tomorrow.

JAIL CLEANED.

Deputy Jailor Tom Potter this morning had the county jail cleaned, every cell being thoroughly scrubbed. The prisoners received a dinner of rabbit and dumplings, in addition to other things they were not accustomed to get every day.

LIBERALLY PATRONIZED.

The Thanksgiving supper and entertainment given by the Catholic Knights and Ladies of America on Broadway near Third last night was liberally patronized, and the program was very entertaining.

NATIONAL RESERVE ENTERTAINMENT.

The National Reserve Association will tomorrow night celebrate its first anniversary by an interesting entertainment at its hall in Campbell building. There will no doubt be a large crowd in attendance.

MAY NOT LOSE HIS LEG.

Mr. Jasper Jacobs, of New Liberty, Ill., who was brought to the Redick-Rivers infirmary yesterday suffering from a foot mangled between two logs three weeks ago, may not lose the limb, and is now resting easy.

LARGE CROWD ATTENDS THE BALL.

There was a large attendance at the machinists' Thanksgiving ball at the Palmer House last night. It was one of the most enjoyable dances ever given by this organization.

BOLD DEED.

Thieves Break Out a Window at S. Foltz's, on Broadway, and Enter.

They Stole About \$20 Worth of Goods and Carried Them Off in Telescopes.

A huge rock was thrown through the side glass of the display window at Mr. S. Foltz's clothing store on Broadway near Second, last night, and one or more thieves entered.

This morning two overcoats, some shoes, dress goods and other things were missed, together with two telescopes, evidently taken to carry off the goods in. Other articles may have been taken, but they were not missed. The glass was demolished and the rock landed against the other side of the window. The thief went out the back way. No clue was left by the marauder or marauders, and the theft was as bold as that at Mr. J. M. Ezell's store, a few doors away, only a short time ago, when a quantity of clothing was taken. The police are amazed at the nerve of the thieves, and will make every effort to catch them.

A QUIET CITY.

There Was Prevailing Dullness Everywhere Today—Many Give Thanks.

No Schools, No Courts, and a General Rest Everywhere. Much Feasting.

There has been a prevailing quietness throughout the city today, owing to a general observance of Thanksgiving. The post-office was closed, and most of the stores were shut up in the afternoon. The churches drew good crowds.

In some cases matters were unusually dull, and the pupils of the public schools had a holiday. There were no courts of consequence, and business was practically at a standstill. Quite a number of people went out of the city to spend the day, and others went hunting. In matrimonial circles there was quite a rush, as will be seen from another column.

The prisoners in the lockup and Lockup Keeper Mantle and Deputy Jailor Tom Potter gave them good dinners.

There was a holiday in all city departments, and few of the officials showed up about the city hall.

SEMI-OFFICIAL NOTE.

Spaniards Asked to Furnish Assistance to Save the National Credit.

Madrid, Nov. 23.—A semi-official note, issued today, contains an appeal to the Spaniards to furnish assistance to save the national credit. "If they do not wish foreign capital to be withdrawn from Spain," the note adds:

"Some people believe Cuba ought to assume her own debt, no matter in whose hands is her sovereignty, because she herself possesses the security therefor in the form of the customs. If, however, nobody will assume the debt, Spain must pay what Cuba cannot, because Spain made herself responsible."

Continuing, the note reads: "With respect to the debt of the Philippine Islands, Spain must await a definite treaty of peace in order to know what conditions America will impose upon Spain through the Paris peace commissioners."

FOREST FIRES.

Henderson, Ky., Nov. 24.—For the first time yesterday and part of the night over about 2,000 acres of land above Great river, in this county. Several thousand dollars' worth of fencing was destroyed. J. W. Cottrell lost his stable, valued at \$500. A trestle on the Louisville & Henderson railroad caught fire, but was extinguished before much damage was done. Untold damage would have been done but for the timely falling of rain and good work on the part of the farmers.

MISS GHOLSON ARRIVES.

The remains of Her Sweetheart Will be Brought Here for Interment.

Miss Hattie Gholson, whose sweetheart, Mr. Phillip J. Carr, was killed near Sioux City, Ia., arrived in the city last night from Cairo, on the Fowler, and was a guest of Miss Lou Flowers, on Clark street.

The remains of Mr. Carr will be brought here for interment, it is the present intention. Miss Gholson left this morning for her home in the county.

WALDON HERE.

The Mayfield Post-Office Robber Is In Jail in Paducah.

James Waldon, the man arrested at Mayfield on a charge of stealing letters from the post-office boxes, was brought in last night by Deputy Marshal LaRue, and lodged in the county jail. He will be given a preliminary trial before Commissioner Puryear as soon as court adjourns. He cannot be tried at this term, as the grand jury has adjourned and cannot indict him.

CUBAN COOKING.

Like the Principal Article—Excellent Coffee Is Made.

The kitchens of the Cubans are always either in the courtyard back of the house or on the roof. Unlike the Irish, they never dream of making the kitchen a sitting or dining-room. And, unlike the Americans, they do not cook three times a day. Twice a day the Cuban servant of housewife goes to her kitchen and down her cooking; at ten o'clock, to cook the breakfast, which is served at 11, and about six o'clock to cook the dinner, which is served at eight. In the morning at six or seven o'clock coffee is served, though for this purpose the kitchen is not used. The coffee is cooked in a French coffee pot on the sideboard of the dining-room. As for coffee, nowhere in the world, Paris and the German cities included, do they make such excellent coffee as that made by the Cubans. They use the coffee grown on the island, and oftentimes the housewife picks the beans from a coffee bed in her courtyard just as we would pick green peas in our own garden. Cuban coffee is very black and strong, but never muddy like the Turkish. The coffee bean is usually cheap and plentiful, and the Cuban cook has learned that to make good coffee and not brown water he must not be too sparing of the raw material. He never allows less than a full teaspoonful of ground coffee to a pint of water.

At breakfast at every place stands a bottle of red Bordeaux or Catalonian wine, which is drunk as freely as water. The food is usually abundant and nourishing. After breakfast, and not with it, coffee is served.

At breakfast they have the inevitable honey, and fruit and eggs, the last being cooked in styles about the same as in the States. In addition, a favorite breakfast dish is a small tenderloin steak, served with sliced fried potatoes.

The island has 90 different kinds of rice, which the natives cook in almost 90 different ways. In Cuba rice grows in the water or it grows on dry land; some varieties come to maturity in three months, others not for four to six months. Besides the ordinary ways of cooking rice in puddings, curries, and so on, the Cubans have a dish of their own, rice casserole. It is usually served as an entree. Its ingredients, sufficient to fill a moderate-sized casserole, are a pound of rice, two pounds of meat, a few slices of fat ham and one teaspoonful of salt.

The casserole, when ready, is used, of course, as a border for ragouts and fricassees. Translated from the Spanish, the Cuban recipe for this dish is:

"After having washed the rice in water two or three times, drain it well and put it in a stewpan with the stock, ham and salt; cover the pan and let the rice gradually swell over a low fire, occasionally stirring to prevent it from sticking. When the rice is done, pick out the pieces of ham, and with the back of a large wooden spoon mash the rice into a perfectly smooth paste. Then well grease a mold and turn it upside down for a minute or two to drain, then put some rice all around the bottom and sides of it, place a piece of soft bread in the middle, cover it with rice, press it in equally with the spoon and let it cool. Then dip the mold into hot water, turn the casserole carefully on a dish, mark where the lid is to be formed on the top by making an incision with the point of a knife about an inch from the edge all around and put in a very hot oven. Brush it over with a little butter and bake about half an hour, or rather longer. Then carefully remove the lid, which will be formed by the incision having been made all around, remove the bread in small pieces with the point of a knife, being careful not to injure the casserole. Fill the center with the ragout or fricassée, which should be made thick; put on the cover, glaze it, place it in the oven to set the glaze. Serve as hot as possible."—American Kitchen Magazine.

GLADSTONE'S HOME.

Interesting Facts Concerning Historic Hawarden Castle.

Both in ancient and modern history Hawarden is of interest. From the castle there are views of Shrewsbury, of the historic Dee, on which eight kings rowed, and besides the beautiful scenery and ruined castles in sight there are battle grounds, where the Welsh and the Lord Marches fought. After the conquest Hawarden was included in the grant of land given to Hugh Lupus, earl of Chester, and in 1337 it passed into the hands of the earl of Salisbury, and, reverting to the crown, was given to the duke of Clarence, Henry IV.'s second son, and in 1454 it came into the possession of Sir Thomas Stanley, afterward Lord Stanley, and for 200 years Hawarden remained in this family, but in 1653 it was seized upon and sold to Charles Justice Glynn. At the restoration to effort was made to recover Hawarden for the Stanley family, and a debate on the question took place in the house of lords, but Hawarden remained in the possession of the Glynn family until the death of the last baronet (1874), when the lordship of the manor, by a family arrangement, passed to Mr. Gladstone's eldest son. It is thought that a fortified camp existed on the site of the ancient castle prior to the Norman conquest. The exact date of the castle is unknown. An Unfortunate Editor.

A recent impression of the Turkish Gazette, the leading and official organ in Transcaspia, contains the following editorial paragraph: "Instead of the usual double-page issue, our to-day's number, as our readers will be surprised to find, is printed upon a single sheet, with a small supplement impressed upon ordinary letter paper. The reason of this is that our stock of paper is exhausted, pending the arrival of a new supply ordered six months ago. We shall probably also have exhausted the available local stock of writing paper before our own consignment of printing paper arrives, and the publication of the Gazette must then perforce be abandoned."

MR. A. W. WILLIAMS.

The handsome Masonic Temple buffet has changed hands, and Mr. A. W. Williams, formerly one of the best-known traveling liquor salesmen in the United States, is the new proprietor. This gentleman's popularity is attested by the fact that the receipts of the place have doubled under his administration. Mr. Williams isn't a big man physically, but in business matters he's a condensed cyclone. He is a New Englander, coming from an old family of New Haven, Conn., where he was born and received his early training. He was an ambitious youngster and started to hustle his own living when 13 years old, and he hasn't let up hustling yet. In 1874 he went to Kentucky and for more than eight years was the traveling representative of Friedman, Keller & Co., distillers, of Paducah, Ky. In this capacity he traveled through all the southern states, Minnesota, Wisconsin, Illinois, Colorado and New Mexico. In all his travels he made him self popular everywhere, and if he ever made an enemy he isn't aware of it. Mr. Williams is a Chesterfield in courtesy and politeness. He is married, has a pleasant home and is the father of a bright young man, a graduate in dental surgery.

No liquor is sold over the bar less than twelve years old, and all judges of a good article are sounding the praises of the Brook Hill whisky.—Chicago Gazette.

FIRE THROUGH THE COACH.

The Bullet Came Near Striking Mr. Snook.

This morning as the 8:30 o'clock accommodation from Kuttawa was passing through the Clark's river section, someone shot a pistol through a window.

Fortunately no one was hurt, but the window which was demolished was one at which Mr. Snook, ex-Congressman Stone's son-in-law, had been sitting only a short time before. No one was hurt and as usual there was no clue to the perpetrators.

LYNCHING THREATENED.

Little Lillian Brandes, of Oakland, Cal., Beaten to Death by Her Parents.

Oakland, Cal., Nov. 24.—The coroner's inquest over the remains of Lillian Brandes, the thirteen-year-old girl who was supposed to have committed suicide by hanging at Berkeley, has resulted in a verdict charging her father with murder and naming her stepmother as an accessory. The evidence tended to show that the child had been beaten to death and hanged to a bedpost.

Neither Brandes nor his wife was taken to the inquest, as there was talk of lynching.
